

DPWP 15T

DPWP 9A

DPWE 7A/7AX

DPWE 10T

DPWE 11T

Dayliff DPW pressure washers are the ideal solution for all wash down and cleaning applications particularly for vehicles, compounds, production lines, tanks etc. They are high quality units giving high performance and excellent value. Particular features are:-

- Options of engine and electric drive to suit requirements
- Supplied complete with trigger controlled spray head with interchangeable nozzles (except for DPWE 7A/7AX with adjustable nozzle), in-line water filter and high pressure hose all wheel mounted for easy manoeuvring.
- Choice of commercial quality Triplex and residential quality Axial pressure pumps
- Engine powered models fitted with air-cooled OHV 4-petrol engine with low level oil cut out
- Electric models suitable for 240V 1 phase and supplied complete with 5m power cable

Operating parameters

Pumped Liquid: Clean non-aggressive water not containing solid particles

Liquid Temperature: 5 – 40°C
