## Swimming Pool Pumps

### PUMPS

DAB EUROSWIM pool pump are specially designed using the latest technology, materials and components for all domestic and small size institutional swimming pool applications. Features include a large pre-filter with see through lid, an ultra silent (67dBA) high efficiency motor and reinforced inlet and outlet ports. All pump components are made from corrosion resistant technopolymer plastic reinforced with glass fibre for long life and durability.

### MOTOR

The pump incorporates a TEFC motor with in-built thermal overload protection. The motor can be connected directly to mains power supply through a fuse or MCB.

**Enclosure Class:** IP55

**Voltage:** 1x240V

**Insulation Class:** F

**Speed:** 2800rpm

### OPERATING CONDITIONS

**Pumped liquid:** Thin, clean, chemically non aggressive liquids without solids or fibres.

**Maximum Fluid Temperature:** +60°C

**Maximum Ambient Temperature:** +50°C

**Maximum Operating Pressure:** 10 bar

### PUMP DATA
